

An introduction to **Eco-Congregation** Scotland

Saturday 2nd October
10.30 - 12.30

Ness Bank Church
Inverness

**What can the
church do about
climate change
and pollution?**

**How do
environmental
issues relate
to our faith?**

**How can our church
engage with the
community and
young people?**

**Join us for coffee and a workshop discussion to answer
these questions, and find out how...**

- churches around Scotland are caring for God's creation
- your congregation can care better for the environment
- to reduce your carbon footprint
- the programme works and how you can get involved

Eco-Congregation Scotland www.ecocongregation.org/scotland is an ecumenical programme for churches to help them understand environmental issues in the context of their faith and take spiritual and practical steps to care for God's creation. The programme is designed to support and develop the existing work and mission of churches. It offers free resources, ongoing support and an award scheme. It can enliven church life, encourage the involvement of people of all ages and help churches engage with their local communities.
