

Edinburgh Eco-congregation Network

Earth be Glad: What Next?

**October 9th 7.30pm
at St Andrew's and St
George's West**

It's eight years since St John's Edinburgh launched its Eco-Congregation programme, under a title from Psalm 96, 'Earth be Glad'. This talk looks back at what we have achieved - what we haven't achieved - and goes back to the bible to discover that it's time we took a radically different approach to the environmental crisis. The church might never be the same again, and nor might you.
