1)When we are sent, we travel light
not bearing hatred, malice, spite
we warn, alert, and love is why
God writes our names into the Sky!

2)When we are partners with the Earth-
Our praise is chorus; deep our mirth,
with those who swim and squirm and fly:
God writes our names into the Sky

3)God loves this world’s diverse delight
paints puffin’s beak so rainbow bright.
We’re made that way, so can’t deny
God writes our names into the Sky!

4)The Earth is frail; we’re sent to heal;
the danger to all life **is** real
with every prayer and act we try
God writes our names into the Sky!
