[Brightest and best...] CH4 327 or CH4 634

1) God the Sustainer is God who embraces  
weaves and connects all that's known and obscure;  
Seas and the skies suffer human injustice:  
Earth shares a voice with the downtrodden poor.

2) God in Christ Jesus speaks love full of warning:  
counsels we build on the rock, not on sand  
teaches alertness and wide-awake walking  
faith is God's gift for the good of the land.

3) Kingdoms will suffer from violent corruption -  
Even the Kingdom of Heaven itself  
Earth, God's Creation, is balanced in beauty:  
fragile, our friend, needing care for good health .

4) Nothing we do, say, or pray is irrelevant:  
neither to neighbours next door, nor afar.  
God's is the glory that's known in Earth's goodness  
Empires *do* fall, when such truth they ignore.
