

# How we care for God's planet Earth by being responsible carers and co-workers of Creation.

## Transport

### How do you travel to and from church?

- Car  always  sometimes  almost never
- Public transport  always  sometimes  almost never
- Cycle  always  sometimes  almost never
- Walk  always  sometimes  almost never

If travelling by car, do you ever car-share?  yes  no  sometimes

Who do you bring?  family members  other members of the congregation

visitors  items for the service/Junior Church/ food for lunch/musical instruments/goods to be taken elsewhere from the service.

### Day to day travel

What type of transport do you use going about your day/work/etc? (choose all that mostly apply)

- car  public transport  cycle  walk

### Holiday Travel

Within the last 2 years how have you travelled

Within mainland UK  flights  public transport  ferry  car  cycle

Within with wider UK (islands)  flights  public transport  ferry  car  cycle

Within Europe  flights  public transport  ferry/boat  car  cycle

Beyond Europe  flights  public transport  ferry/boat  car  cycle

What influences your decision:

costs  time  environment

other (please specify) .....

**If you own a car**

Is it  Electric  Hybrid  Petrol  Diesel

Car Use  mainly short trips  mainly long trips  Combination of long and short trips  
 other (please specify) .....

When you next decide to buy a vehicle will you consider an electric or dual powered vehicle, instead of petrol/diesel?  Yes  No  Unsure

**At Home**

Do you  Own your home  Rent  Share with others  Other

**Heating:**

**Do you have:**

- a ground or air source heat pump  solar or photovoltaic panels
- green energy electric or gas  gas or electric heating system
- coal or wood burning stove

Have you considered changing to Green Energy?

yes  no  already there

If not, why not .....

Have you considered changing your heating system in the near future?

yes  no  unable to do so (do not own home)

What would prohibit you

- cost  inconvenience  household turmoil  type of building prohibits it
- other (please specify) .....

If you feel cold do you ....

- wear another layer of clothing  move around more  automatically turn up the heating
- turn up the heating but much lower than I previously did
- other (please specify) .....

**Insulation:**

**Do you have the maximum insulation** that your home can support?

- Double (or triple) glazing     cavity wall (or added internal) insulation
- Draft excluders     Insulating curtains/window coverings
- other (please specify) .....

**If you have a garden (or outdoor space)\_do you**

- grow vegetables/fruit/herbs     make own compost     use council food waste recycling
- leave areas for wild flowers     leave areas to encourage wild life
- not overcut lawns to enable insects and birds to visit
- not over concrete to allow drainage into the soil
- other (please specify) .....

**Water and energy use every day**

Do you save water and energy by:

- not filling the kettle when a small amount will suffice
- use less water for washing teeth, short showers rather than full baths, washing dishes, etc
- wash clothes at 40c or less
- switch off electrical appliances when away
- switch off electrical appliances (standby) overnight

**Recycling:** Do you

- recycle at home     recycle some items only
- recycle soft plastics at supermarkets     bring milk bottle tops to church to recycle
- don't recycle

**Shopping**

**When shopping for food do you**

- buy by cost     buy by convenience     choose local products     choose fair trade
- buy organic     always take my own bags/containers
- use refilling options where possible     chose products with less plastic

My diet is  vegetarian  vegan  eat meat occasionally  eat meat most days

When having leftovers do you:

throw them away  compost  freeze for later  save for the next day or so

**Clothing:**

always buy new  buy regularly at charity shops  repair what I can

donate or recycle used items

**Have your attitudes and actions changed in relation to being more Environmental aware**

yes (in recent months)  yes (in recent years)

always considered the environment in my choices  no - not in issue for me

**Were you aware that (Congregation Name) is an Eco-congregation?**

yes  no

Do you know what an Eco-congregation is?

yes  no  to some extent
